Hiansa is one of the leading manufacturers and suppliers of lacquered steel for roofs and façades, an essential application in industrial construction.

The advantages of shaped lacquered steel are its light weight, its mechanical strength, its ease of transportation and handling, its speed of assembly and the multiple aesthetic possibilities, which, in the case of Hiansa, include a variety of finishes and coverings: galvanised, lacquered (range of colours), aluzinc, etc.

At Hiansa, the most innovative designers will find a wide range of products and a suitable response to the technical, functional and aesthetic requirements of façade and roof closures for modern architecture.

Meanwhile, with the unstoppable technical progress of light metal closures, Hiansa has developed a comprehensive range of profiles guaranteeing the majority of solutions designed. All our products are recognised for their competitive quality. This range does not just include profiles, but a wide range of finishes and special parts to finish the project: curved, drilled profiles, sandwich panels with rigid polyurethane and polyisocyanurate foam insulation, refrigeration panels, self-supporting trays and complementary natural lighting (translucid integrated modules), ventilation and insulation systems, composite slab sheeting, DECK coverings, finishes, etc.
PANEL FACHADA MPF/PRF/SML/LIS

EXTERIOR / INTERIOR FACE:
- Pre-painted steel

INSULATION:
- Polyurethane (PUR) and Polyisocyanurate (PIR)

USE:
- Panels

USEFUL WIDTH 1100 mm

THICKNESS (mm)
3.1

HONEYCOMB POLYCARBONATE

COMPOSITION:
- Honeycomb poly carbonate

USEFUL WIDTH 1100 mm

USE:
- Roofs

THICKNESS (mm)
1.5

HIANSA PLUS

COMPOSITION:
- Honeycomb poly carbonate

USEFUL WIDTH 1000 mm

USE:
- Roofs

THICKNESS (mm)
2.0

POLIMER

COMPOSITION:
- Compact poly carbonate

USEFUL WIDTH 1000 mm

USE:
- Roofs

THICKNESS (mm)
1.5

COMPACT POLYCARBONATE

COMPOSITION:
- Compact poly carbonate

AVAILABLE FOR:
- MT-18, MT-33, MT-62 y MT-92

USE:
- Other than roofs to consult

THICKNESS (mm)
1.5

COLOURS

FINISHES

COLOUR
0000 NEGRO DEXTAR
1064 BLANCO PIÑON

HALOSA
5001 GRIS TOWA
5003 ROJO TAJA
5002 ROJO BAZTAN
5001 VERDE MANERA
5006 AZUL LAGO
5007 HIANSA METALLIC

FRIGO

EXTERIOR FACE:
- Pre-painted steel

INTERIOR FACE:
- Pre-painted steel

USEFUL WIDTH 1100 mm

THICKNESS (mm)

INSULATION:
- Polyurethane (PUR) and Polyisocyanurate (PIR)

USE:
- Facades, prefabricated huts, false ceilings, refrigeration chambers and subdivisions

FRIGORIFEROS/PANEL

EXTERIOR FACE:
- Pre-painted steel

INTERIOR FACE:
- Pre-painted steel

USEFUL WIDTH 1100 mm

THICKNESS (mm)

INSULATION:
- Polyurethane (PUR) and Polyisocyanurate (PIR)

USE:
- Refrigeration chambers and subdivisions

MURU

EXTERIOR FACE:
- Pre-painted steel

INTERIOR FACE:
- Pre-painted steel

USEFUL WIDTH 1000 mm

THICKNESS (mm)

INSULATION:
- Polyurethane (PUR) and Polyisocyanurate (PIR)

USE:
- Facades, prefabricated huts, false ceilings, refrigeration chambers and subdivisions

MURI/TEJA

EXTERIOR FACE:
- Pre-painted steel

INTERIOR FACE:
- Pre-painted steel

EXTERIOR COLOUR FINISH:
- Standard colours

INTERIOR COLOUR FINISH:
- Wood finish

USEFUL WIDTH 1000 mm

USE:
- Sleeping roof surfaces

PANEL TEJA

PANEL DE CUBIERTA

EXTERIOR FACE:
- Pre-painted steel

INTERIOR FACE:
- Pre-painted steel

EXTERIOR COLOUR FINISH:
- Standard colours

INTERIOR COLOUR FINISH:
- Wood finish

USEFUL WIDTH 1000 mm

USE:
- Sleeping roof surfaces

PANEL DE CUBIERTA
**FACADE PANEL**

**EXTERIOR / INTERIOR FACE:**
- Pre-painted steel

**INSULATION:**
- Polyurethane (PUR) and Polyiso (PIR)

**USE:**
- Facades, prefabricated hulls, false ceilings, refrigeration chambers and subdivisions

**USEFUL WIDTH:**
- 1100 mm

**THICKNESS (mm):**
- 1,6+ (66)

**COLOURS:**
- 1000 NEGRO DEXTAR
- 2000 ARENA
- 3000 VERDE NAVARRA
- 4000 AZUL LAGO
- 5001 GRIS PERLA
- 6000 SILVER METALLIC
- 7001 ROJO TEJA
- 8000 CREMA BIDASOA
- 9006 SILVER METALLIC
- RAL 9006

**Honeycomb Polycarbonate**

**COMPOSITION:**
- Honeycomb polycarbonate

**USEFUL WIDTH:**
- 1000 mm

**THICKNESS (mm):**
- 1,6+

**COLOURS:**
- Other 18 colours to consult

**Lights:**
- Facades

**Muro**

**EXTERIOR FACE:**
- Pre-painted steel

**INTERIOR FACE:**
- Pre-painted steel

**USEFUL WIDTH:**
- 1000 mm

**THICKNESS (mm):**
- 17 (5,25)

**REFRIGERATION PANEL**

**EXTERIOR FACE:**
- Pre-painted steel

**INTERIOR FACE:**
- Pre-painted steel

**USEFUL WIDTH:**
- 1000 mm

**THICKNESS (mm):**
- 1.0

**COLOURS:**
- 1000 NEGRA
- 2000 BIANCO
- 3000 AUREA
- 4000 VERDE
